

DOPKINS MC5 HEALTH CARE TEAM

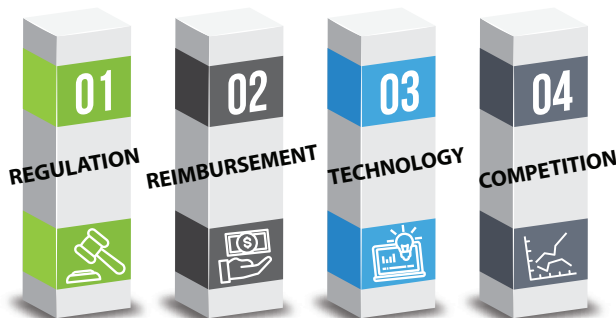

A FRAMEWORK FOR MANAGING INDUSTRY CHANGE

Health Care organizations all share in overcoming challenges related to regulation, reimbursement, technology and competition, collectively referred to as the "Four Pillars of Health Care".

In response, Dopkins & Company has created MC5, a unique multi-disciplinary service offering designed to assist our clients manage FIVE related critical success factors: Cost, Revenue Cycle, the Process of Care, Organizational Change and Risk/Compliance.

Four Pillars of Health Care

Dopkins
MC5 
 Managing Change in Health Care

THE DOPKINS DIFFERENCE

The Dopkins Health Care Team is led by professionals with inter-disciplinary expertise within the Firm who understand the uniqueness of the industry. Our clients include physician practices (individual and group), Health and Human Service non-for-profit agencies, ambulatory surgery centers, diagnostic imaging centers, laboratories, dialysis centers, university practice groups, and hospitals. Moreover, we serve medical device manufacturers, publicly traded, privately-held and family-owned operations.
